

School of Computer Science and Engineering

LAB - 9 Exercises

Course Code	:	CSE3025 - Large Scale Data Processing	Date	:	16/04/2021
Lab Experiment	:	Practice of MapReduce Programming using SequenceFile Format and NlineInput Format	Slots	:	L29+L30
Instructors	:	Dr. Ramesh Ragala			

Objective:

1. To understand the detailed processing of MapReduce Framework using Sequencefile Format and NlineInputFormat

Problem- 1:

Write a MapReduce program to convert image file into sequencefile output format.

Problem - 2:

Write a MapReduce program to convert sequcefile format of image file into actual image file.

Problem - 3:

Write a MapReduce program to illustrate the NlineInput format on your any dataset
